Left to Right: Kimball Kelsey, Foundation Board Member Employee Representative, Jed Burton, Director of Clinical Services at Weber Human Services, and Spence McArthur, Wasatch Peaks Credit Union and Foundation Board Member.

#Making a Difference

Over the course of last year, we had to deal with Covid-19 and faced challenges unlike we have ever seen in the history of our agency. Even with these challenges, the employees, volunteers, and board members at Weber Human Services were dedicated to the people they serve in the community. We are grateful for the work being done to address mental health, substance abuse, prevention, and aging services needs for the clients at the agency.

We are proud to be partners with other local non-profit organizations in the fight to eradicate the problems that low-income individuals and families face on a daily basis. We are really impressed with our programs, managers, and staff who kept the agency moving and the clients' needs fulfilled. Our agency and programs were all challenged uniquely and were able to adjust and conform to Covid restrictions and still perform their vital services through "out of the box" thinking. As we watched the dedicated staff at the agency overcome obstacles presented by Covid-19 and go above and beyond to make sure the clients' needs were met, we saw enhanced care for those in need through telehealth visits, programs specific to addressing long-term mental illness, and recovery efforts for those impacted by the pandemic.

Through it all, the Foundation has been right alongside employees at the agency supporting the clients and other business partners in the local community as they dealt with the impact of the pandemic. Illness and work challenges aside, we continued to forge ahead, and the wonderful donations and fundraising in particular, are evidence of the wonderful community support the Foundation has received in the past year.

The Foundation was the recipient of a wonderful donation to Tranquility Home from RC Willey on Riverdale Road. RC Willey donated furnishings to Tranquility Home that really impacted the mothers and children residing there. The donations minimized the institutional feel of this group home, making it more personalized and comfortable. It was heartwarming to see so many employee volunteers from RC Willey helping to deliver and set up the donated items. It was a group effort and has made an enormous difference at the residential facility.

The annual golf tournament had another monumental year, and we thank the wonderful Foundation board members and community partnership agencies across Weber County for this success. Now as things start to normalize more and seem to be getting back to routine, we are dealing with variants of the illness, and it appears to be escalating again as we are unable to achieve herd immunity. Despite the challenges that we face, we have accomplished these and many other things during the course of the year. We want to thank and congratulate the staff and board members at Weber Human Services for a successful year. It is deemed successful because of the many great and wonderful partners and employees who work in conjunction with us. Thank you all for your input, your drive, and caring attitudes on behalf of Weber Human Services.

With Gratitude and Appreciation,

Kevin Eastman, CEO
Weber Human Services

Brock Mortensen, CEO
Ascent Credit Union & Foundation Board Chair

RC Willey Making a Difference

In-Kind Donation Transforms Tranquility Home

Left to Right: Jill Garner, Dan Walker (General Manager RC Willey), and Summer Williams, take a picture before unloading the delivery truck for Tranquility Home.

Tranquility Home is a residential facility at Weber Human Services for women who are dealing with substance use disorders. The clients are able to keep their children with them as they work through their individual rehabilitation programs.

Earlier this year, Tranquility Home was the recipient of a generous donation from RC Willey on Riverdale Road. The donation consisted of two full bedroom sets, flat screen televisions for the group rooms, updated artwork for the walls, a BBQ for the outdoor area, and a new couch. RC Willey donated items for the children as well including new desks and chairs, carpets for the play area, arts and crafts and other toys. The new additions to the facility made the clients feel more at home while completing their treatment and helped the children feel welcome.

“The very generous donation from RC Willey made a huge difference for the women and children in our residential facility. The furniture, toys, electronics, and pictures transformed a treatment environment into a comfortable home,” said Jed Burton, Director of Clinical Services. “The staff from RC Willey not only donated the items but they helped set everything up in the facility and couldn’t have been more gracious. This donation will impact the lives of those we serve for years to come.”

Meals on Wheels Steps Up

Nutrition Center Delivers More Meals During Pandemic

During the Covid-19 pandemic, the Weber Human Services Area Agency on Aging significantly increased its number of meals delivered through Meals on Wheels and at the pick-up senior centers in Weber and Morgan counties. The total number of meals delivered by Weber and Morgan counties in Aging services show a 39 percent increase from one year to the next.

100,276 meals provided (April ~ December 2019)

139,557 meals provided (April ~ December 2020)

Community Assistance

Deseret Industries Provides Community Services Grant

The local community has a large homeless population, and shelters experience difficulties with overflow and providing necessities to their guests. The Weber Human Services Mental Health Court experienced success with the help of the Foundation this year. The biggest success for the program in 2021 was being awarded a Deseret Industries Community Grant. This grant was specifically requested to help the agency’s homeless population furnish their apartments (once housed) as well as providing clothing, as many of them do not have clothes.

The Weber Human Services Mental Health Court Program works with individuals that struggle with their mental health and some with sobriety. The staff assists them with getting connected to community resources that will improve their overall wellbeing. The vouchers provided by Deseret Industries this year helped the clients pick specific items to maintain their new home, which helped improve their mental health by reducing the stress brought on by homelessness.
